

**Altered Reality.** (adapted from N4C) An Altered Reality or Creative photograph is a combination of your imagination, inspiration, perception and inventiveness. With an Altered Reality image, the maker intends (and the viewer easily recognizes) that the image is not a representation of reality.

a) The Altered Reality image must have a photographic base of the maker's own creation.

b) Manipulation of the basic image or images can be done in camera and/or in computer.

c) The makers of Altered Reality images should feel free to use a wide range of tools and resources, limited only by their imagination.
